SUMMARY

A hard-working and creative Master of IT graduate with a great eye for detail, keen enthusiasm in user-centred design and understanding of usability principles. A self-taught front-end developer with the passion to learn new technologies every day and is always up for new challenges. With every line of code, I strive to create top quality and high-performance web applications.

EXPERIENCE

DIGITAL GARDEN

Front-end Developer - Fulltime

Aug 2020 - Present

- Building reliable, maintainable and scalable SPAs using **React**, creating custom theme for 10+ **Drupal CMS** websites.
- Estimating and contributing to feature work by producing high quality and tested code.
- Writing JavaScript unit tests with **Jest**.
- Performing bug fixes, functional and code reviews.
- Collaborating with designers, product owners and testers to ensure to deliver the product's needs correctly as an agile team.

CODING MENTOR

Trainer

July 2020 - Present

- Teaching and sharing the fundamental knowledge of web front-end development for beginners.
- Supporting students during their course and answering questions in a positive and constructive manner.
- Working with education team to improve the web development curriculum.
- Developing and maintaining the www.codingmentor.com.au website.

MIRK

Front-end Developer - Contract

Aug 2019 - Jan 2020

- Developed company's website by using **HTML**, **CSS**, **JavaScript** as well as **Vue.js** framework from static concepts with a high level of professionalism and expertise.
- Collaborated directly with the UI/UX designer to ensure designs and animations were efficient.
- Write efficient codes to ensure integration of user-facing elements with server-side logic and optimal performance of the application.
- Conducted testing in multiple browsers to identify bugs and ensure cross-browser compatibility.
- Leveraged knowledge in full-stack web development, **JavaScript**, **Firebase**, **Git**.
